

Texas Tobacco Control Plan 2008

1st Edition, January 2008

ERRATA

The developers of the *Tobacco Control Plan* wish to correct identified errors in this publication:

On page 5, the Table of Contents is not synchronized. Please see the reverse for a revised Table of Contents.

On page 13, the third line of *Table 1: Texas progress on Healthy People 2010 goals related to tobacco use* should have read: "Cigarette smoking High School Youth, grades 9-12 (past 30 days)" instead of "Cigarettes Adults (past month)". Also for the same line under "Texas Interim Status & Source", it should have read "24.2% 2006 YTS" instead of "24.3% 2006 BRFSS".

On page 17, the increment of savings amount on the Y-axis in *Figure 9: Texas Projected Savings from Comprehensive Tobacco Control Programs* is not labeled correctly. The Y-axis should have been labeled "In Millions".

The last paragraph on page 18 refers to Figure 11 and it should read 'Figure 10'.

On page 27, the goal described is listed as Goal V when it should be Goal IV.

Although these errors do not affect the conclusions, they are enough to justify errata.

CONTENTS

Preface.....	3
List of Figures and Tables	6
